

SECOND MONDAY

Humoral Hypercalcemia of Benignancy: The Role of PTHrP

Charles F. Sharp, MD

September 14, 2015

12:00 PM – 1:00 PM

Research Conference Hall

TARGET AUDIENCE: Internal Medicine & Primary Care Physicians
(All interested parties are welcome to attend)

LEARNING OBJECTIVES:

After this activity, you should be able to:

1. Recognize the potential for benign tissue to elaborate humoral substances that can cause hypercalcemia.
2. Understand the physiologic role of PTHrP in human health.
3. Review the modern approach to the diagnosis and treatment of hypercalcemia.

Huntington Hospital is accredited by the Institute for Medical Quality/California Medical Association (IMQ/CMA) to provide continuing medical education for physicians. Huntington Hospital takes responsibility for the content, quality, and scientific integrity of the CME activity.

Huntington Hospital designates this live activity for a maximum of **1 hour of AMA PRA Category 1 Credit™**. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Huntington Hospital is in compliance with the American Disabilities Act. If special accommodations are needed by persons planning to attend this presentation, please contact the Medical Staff Office: (626) 397-3770
