Pasadena, California

About Huntington Hospital

Huntington Hospital is a 544 bed, not-for profit community teaching hospital dedicated to medical care in the San Gabriel Valley area. Huntington Hospital is a nationally ranked, community focused hospital with Magnet recognition. For more than 130 years, Huntington Hospital has been providing care for the community with our trusted doctors, nurses, and staff to ensure excellent care. Our nationally ranked services include neurology, orthopedics, maternal and child health, cardiovascular care, and advanced robotic surgery with certified comprehensive stroke center and heart attack receiving center. As a teaching hospital, we are at the forefront of new advances in medicine. We strive to be a leader with our mission to build a healthier community through world-class health care.

The Department of Pharmacy provides 24-hour service and includes a broad range of clinical services. With over 30 clinical pharmacists on staff, pharmaceutical care is provided in a wide variety of areas including emergency medicine, pediatrics/neonatology, critical care, general medicine, hematology/oncology, infectious diseases, and ambulatory care.

In addition to ASHP-accredited PGY-1 Residency program, Huntington Hospital also offers PGY-2 Emergency Medicine Residency, and joint PGY-2 Infectious Diseases Residency in collaboration with USC school of Pharmacy.

PGY-1 Pharmacy Residency Program Objectives

The goal of Huntington Hospital PGY-1 Residency program is to develop knowledgeable, proficient, and experienced pharmacists who will be able to function in a variety of patient care areas. Our ASHP-accredited PGY-1 Residency program allows residents to enhance their clinical knowledge by acting as a drug information resource, attending multidisciplinary rounds, and teaching.

PGY-1 Pharmacy Residency Program Features

The PGY-1 residents will rotate through clinical rotations in various clinical areas. Each rotation is three to six weeks in length and may include teaching responsibilities. As a member of the medical team, the residents are expected to proficiently and competently provide pharmaceutical care and assume all pharmacist responsibilities in the clinical area. The residents are expected to participate in various administrative and clinical projects as part of longitudinal Pharmacy Practice rotation. Additional responsibilities include providing in-service lectures to pharmacy, nursing, and medical staff, as well as precepting fourth-year pharmacy students.

Rotations Offered

- Internal Medicine
- Critical Care
- Infectious Diseases
- Emergency Medicine
- Hematology/Oncology
- Pediatrics
- Ambulatory Care
