

Senior Care Network Multipurpose Senior Services Program

This program helps older adults on Medi-Cal live safely in their own homes and avoid nursing facility placement. Multipurpose Senior Services Program (MSSP) participants receive support from Senior Care Network (SCN) nurses and social workers to manage their medical conditions, access insurance benefits and learn about community resources. There is no cost to eligible participants.

Do I qualify for MSSP?

Consider applying if you meet all criteria:

- 65 or older
- On Medi-Cal
- Have medical conditions that could require a skilled nursing facility (SNF)
- Live in the San Gabriel Valley or Pomona Valley of Los Angeles County

Why should I have MSSP?

- To receive support for you, your family, and your caregivers to help you stay safely at home
- To have a professional to talk to and advocate for your needs, such as:
 - Getting items covered by insurance
 - Learning about social services
 - Planning for future care
- To access additional care and services not covered by insurance

What can I expect as a participant in MSSP?

You will meet with a social worker and nurse in your home to enroll in MSSP. You will take an active role in your care during monthly telephone calls and home visits every three months to identify needs and access resources.

Contact the SCN Resource Center at (626) 397-3110, option 1, or visit huntingtonhealth.org/MSSP
